We operate a fleet of over 100 ice cream carts used for special event rentals and street vending purposes. We have been working with ice cream carts for over 30 years and have owned nearly every major brand of ice cream cart.

## Why we use C. Nelson brand ice cream carts

We use ice cream carts from C. Nelson Mfg. because of their durability, reliability, and excellent design characteristics. Their carts are practical, easy to use, and provide us with years of trouble-free service. Even some of our oldest carts from C. Nelson still look new after 10+ seasons. Because they offer ice cream carts in a variety of sizes for different applications we have the flexibility to serve virtually any customer and any situation presented to us.

We like working with C. Nelson because they listen to their customers. When we see potential for design improvements out in the field, they consider our feedback when creating the next generation of carts. C. Nelson's already excellent ice cream carts are continuously being improved upon and that helps us stay competitive in the long run.
